THE REPLY FILED 17 April 2007 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☒ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☐ The period for reply expires _____ months from the mailing date of the final rejection.
b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);
(b) ☐ They raise the issue of new matter (see NOTE below);
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: _____. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
5. ☐ Applicant's reply has overcome the following rejection(s): _____.
6. ☐ Newly proposed or amended claim(s) _____ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
7. ☒ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☒ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.
The status of the claim(s) is (or will be) as follows:
Claim(s) allowed: _____.
Claim(s) objected to: _____.
Claim(s) rejected: 1-19, 21-41 and 43-62.

ROBERT E. PEZZUTO
SUPERVISORY PRIMARY EXAMINER

Continuation of 11. does NOT place the application in condition for allowance because: Applicant alleges the prior art fails to disclose a plurality of characteristics configures to vary based on the selection of one of said plurality of activities. The examiner respectfully disagrees and would like to draw applicant's attention to the final rejection wherein the examiner has explained how Microsoft Paint teaches such limitations. However, to further clarify the explanation, Microsoft Paint is a simple program wherein the users are able to select from a first plurality of activities, some of which have distinct selectable characteristics associated with them. For example, the erase tool, the user can select from various shapes and sizes while for the selection (dotted line icon) tool, users can select from different shapes only, or the pencil tool, users can select from different colors as well. Each of these characteristics for each activity is different. The selection of color is a characteristic that is available for the pencil tool, but not the eraser tool. There are other characteristics that are only available to specific activities and not others. Applicant alleges the characteristics of the Microsoft Paint are always the same for that tool, regardless of activity. The examiner respectfully disagrees. The characteristics for certain tools are changeable such as color, size, and shape and are not always the same. Applicant alleges the "determining a first characteristic of a selected interactive tool... the first characteristic being configured to interact with the retrieved drawing activity application" and "determining a second characteristic of the selected interactive tool... the second characteristic being configured to interact with the retrieved second activity application and not the first activity application." The examiner respectfully disagrees. Microsoft Paint teaches the use of activities each with its unique set of characteristics wherein the user selects an activity and then associated characteristics for that activity. Said selected activity characteristics for the first activity are only applicable to that activity and not a second selected activity. The user may then customize the characteristics for subsequent activities which do not affect the selection of previous activities therefore it can be said that the second selection is configured to interact only with the second activity and not the first. .
